When Michael Kenney\* worked for Cunard Lines, a large briefcase arrived at the Canadian office from England. This block of eighteen ten shilling stamps paid the price of the transmission\*. I bought the block in the early 1970's. Mike did business as Deepdale Stamps in Franklin, Mass.

During World War II, Mike served in India and North Africa.

N.B. See the Linn's article on the next two pages.

\* Nine Pounds! What a lot of money.
